

## Facial Peels

### Glycolic Peels

\$40

This gentle peel utilizes Glycolic Acid, the most effective of all Alpha Hydroxy Acids. Glycolic is a natural fruit acid which quickly dissolves the surface layer of dry, dead skin cells that builds as we age. Glycolic peels can be done on any area of the body and are especially effective for acne prone skin in teens and adults. A series of treatments is generally recommended for optimum results.

### Jessner Peel

\$125

Our Jessner is a more aggressive peel which penetrates deeper than the glycolic peels. This peel dissolves the upper layer of dead skin cells resulting in a fresh and more youthful appearance. The Jessner is wonderful to even out skin tone as well as help to reverse sun-damage. **A series of treatments is recommended to achieve results.**

### Vi Peel

\$200 per peel or \$500 pkg of 3

Beautiful results in just one week! This peel is surpassing other peels, mainly because it's safe for all skin types. You can experience radiant more youthful looking skin in about one week with little down time. **For best results a series is recommended.**

## Skin Care

Indulge yourself with a luxurious facial that will address your needs and give you a radiant complexion. Our professional Medical Aesthetician will choose from our skin care products that will best fit your specific skin care needs.

### Microdermabrasion Plus Peel

\$100

Diamond Tome™ Microdermabrasion gently and effectively exfoliates, stimulates collagen production, and promotes healing of scar tissue. Popular among men as well as women, this no downtime treatment softens fine lines, reduces pore size and eliminates blackheads! A light AFA can be added to help increase your results. This treatment is finished with an Azu-Zinc soothing mask designed to help reduce redness and irritation restoring skin to its healthy balance.

### Anti-Aging Facial

#### Revitalizing Treatment

\$90

Our signature treatment is perfect for all skin types. Vitamin C, a potent antioxidant, is the secret weapon of choice in the fight against prematurely aging skin. Couple this with a light steam, deep cleansing, and relaxing aromatherapy de-stressing facial massage for a relaxed, vibrant complexion. Finished with an Acerola + Vitamin C mask which is known to combat free radical damage and stimulate the synthesis of collagen. This facial can include either a light microdermabrasion or light peel (depending on skin type) for an additional \$20.

## Laser Hair Removal

A fast, comfortable and permanent alternative to shaving and waxing. Area must be shaved prior to treatment. Treatment can be done on tanned skin, however sun exposure should be limited to 1 to 1½ weeks prior to treatment for maximum effectiveness. Darker or newly tanned skin types require a patch test before treatment with a minimum of 24 hours prior to actual service.
